

# Evidence Informed Governance

RESEARCH  
SCHOOL

**Learn-AT**  
Associate Research School

**Learn-AT Associate Research School are pleased to offer a 90-minute workshop exploring how to become a more evidence-informed governor or trustee.**

School governors and trustees play a crucial role in improving school performance by providing support and challenge to the headteacher and their leadership team. It is essential, therefore, that you can access and use the best available evidence-based resources.

Many governors and trustees are short on time and do not have a background in teaching. It can also be hard to know where to find jargon-free and trustworthy information.

**Together we will consider:**

- **How research evidence can help your school**
- **How well are pupils achieving in your school?**
- **How effectively is your school spending money?**
- **How does your school support effective teaching and learning?**

**Costs**

**£50 for 2 people**

**Two Dates Available:**

**2nd Nov or 1<sup>st</sup> March 6-7:30pm**

**Dates are subject to change**
