Workshop 1 - Gauging the Impact of Quality Curriculum Design

Tuesday, 20th May 2025, 4pm to 5.30pm

This practical webinar will share three case studies from different primary schools who came out well in Primary History deep dives during OFSTED inspections. By hearing about their success, in contrasting sizes and types of schools and settings, attendees will see how quality curriculum design in Primary History can make a fundamental difference to the impact on pupil learning.

Workshop 2 - Rich Encounters with the Past: Conclusions from the Recent OFSTED Survey of Primary History

Wednesday, 11th June 2025, 4pm to 5.30pm

This practical webinar will disseminate the main conclusions of the 2023 OFSTED subject review report, Rich Encounters with the Past, which includes examples of good and poor practice from a detailed survey of recent deep dives in Primary History. Suggestions will be made around how the primary schools identified as having poor practice might have made improvements to their delivery of the subject.

Workshop 3 - From Flint to Iron: Boosting Subject Knowledge at KS2

Wednesday 18th June 2025, 4pm to 5.30pm

This practical webinar will provide an academic overview of the KS2 NC study unit 'Changes in Britain from the Stone Age to the Iron Age', boosting subject knowledge and giving teachers more confidence in their delivery. It will include an outline of a medium term plan for the content, including rigorous historical enquiry questions linked to disciplinary concepts, with suggested activities for immediate use in the classroom.

Workshop 4 - Teaching History within Living Memory at KS1

Tuesday, 1st July 2025, 4pm to 5.30pm

This practical webinar will demonstrate how subject leaders and KS1 teachers can plan effectively for teaching primary history within living memory (an NC requirement), building on Past and Present in EYFS with carefully devised historical enquiry questions, matched to interesting and motivating activities which also lay foundations for a successful KS2.
