

Primary Geography Workshops

For KS1 & KS2

Spring Term 2025-26

www.eltsh-tmet.uk

The workshops will be led by Jackie Zammit, a geography specialist who leads primary geography networks in the West Midlands and London and a consultant with the Geographical Association. Jackie has taught for the Field Studies Council, worked with teachers on development issues and was a regional coordinator for the Global Learning Programme. She is currently an Associate Practitioner with Lifeworlds Learning, supporting outdoor learning and fieldwork at two residential centres and co-producing educational resources for PositiveNegatives, an animation company.

£30
per online
workshop

Session 1 – Leading Primary Geography - Monday 12th January 2026

Explore everything you need to know to be an effective Primary Geography Subject Lead. You will leave with practical tools and strategies to support your colleagues, audit your current curriculum, and develop it further to ensure a high-quality geography offer that meets the needs of all pupils.

We will also examine the role of key geographical concepts and consider how these can be used to structure, sequence, and strengthen your planning. By the end of the session, you will feel more confident in leading the subject, driving improvement, and shaping a curriculum that is coherent, ambitious, and engaging.

Session 2 – Place Knowledge at KS1 - Monday 26th January 2026

Enhance your early geography provision by exploring how young children make sense of the places around them. Together, we'll look at ways to investigate your locality, introduce a contrasting non-European place, and incorporate simple fieldwork approaches. Free, high-quality resources will also be shared.

Session 3 – Place Knowledge at KS2 - Monday 23rd February 2026

In this follow-on session we'll investigate how pupils develop a richer sense of place through regional studies, drawing inspiration from the East Midlands and the Amazon Basin. Together, we'll unpack progression from local to regional scale and explore ways of strengthening knowledge, enquiry, and key skills.

Session 4 - Exploring issues in Primary Geography - Monday 23rd March 2026

Taking an issues-based approach to primary geography can help children develop critical thinking by exploring real-world problems, connecting classroom learning to their lives, and fostering a deeper understanding of complex issues. This session will have a particular focus on climate and sustainability.
