

Power of Coaching

ENGAGE | CHALLENGE | INSPIRE

The 'Power of Coaching' is designed to enhance the leadership of teaching and learning through promoting effective coaching.

It will introduce and deepen delegate's knowledge and application of coaching within education and is packed with practical activities, tools and techniques that can be utilised within school.

Facilitated by an experienced school leader, POC forms part of the OLEVI Teaching & Learning Syllabus, which has gained a national reputation for raising standards in teaching and learning.

The programme is focused on developing your coaching skills and consists of 5 twilight sessions with a series of post session challenges, completed over a 5-week period.

Delegates will gain a deeper understanding about the power of coaching and the impact that great coaching has on learning:

- being able to confidently apply several strategies to deepen the thinking of pupils
- inspire colleagues to develop and grow
- become a more reflective and energised professional.

As a credible coach, professionals will be able to coach informally, formally and in a structured way using the OLEVI coaching programme.

Attending this programme will enable delegates to utilise processes and skills to coach pupils and professionals to improve learning, thinking and well-being, and will also enable delegates to model courage, humility and discipline when engaging with coaching conversations.
